

Munich / Monaco

From Bavaria through the Alps to the Principality

New impressions of well known holiday destinations. The most beautiful, highest, loneliest alpine passes. Excellent food and specially selected quarters. In other words: Motorbiking like Kings.

We'll go through Oberbayern and Tirol, from the Olympic city of Munich to Cortina d'Ampezzo-the first venue of the Olympic Winter Games. Outside of the ski season the scenic attractions are revealed in all their glory. Nowhere else can you experience the dazzling view of the Dolomite Alps like you can from here. Through grandiose passes and gravel passages we ride to Lago di Garda. Whether you enjoy a Cappuccino or cooling of in the sea, in no time at all you will catch on to the Italian way of life.

With special permission, we ride legally on the Tremalzo Pass street which is normally not allowed for motorbikes. We will travel from Vesio to Lago di Ledro. The bold mountain side route is rightly known as a classical gravel section which is a highlight of the tour, not only for riding but for the beautiful landscapes as well. Through the Bergamasker Alps we reach streets that seem to have never been driven upon. That evening we will reach Lago di Como. Through the northern Italian seas and the impressive Santuario di Oropa we come to Susa Tal.

Our road book reads like a noble menu for Motorbikers: Monte Jafferau, Sommeillier, Asietta, Briancon, Col de Parpillon, Col de la Bonnette, Col de la Lombarde and over the Maria - Stura and Variata Maria Kamm street to Tende.

Tour Plan

- 1. Day** Start south from Munich: Oberbayern - Tirol - Cortina d'Ampezzo.
