

## Nouvelle-Zélande

Are You Ready For The Island?

For a vacation that combines your passion for riding a motorcycle with discovering a country full of stunning scenery, New Zealand is the place to visit. You will see golden sub tropical beaches and ink blue fiords; crystal lakes and green rainforest, white glaciers and amazing wildlife. You will explore unspoiled landscapes On and Off road travelling through one of the world's most beautiful countries.

New Zealand consists of 2 main islands, each of which offers their own unique attractions. New Zealand society is diverse and multicultural. The friendliness, openness and honesty of the only four million Kiwis (native New Zealanders) will impress you.

Our trip starts in Auckland, New Zealand's largest city and major international gateway. We spent one day discovering the town or relaxing after the long flight. The next day we take the airplane to Wellington, New Zealand's cosmopolitan capital. We visit the unique Te Papa National museum and take the bikes. We cross the Cook street by the islander ferry and reach the south island at Picton. After a visit to the Abel Tasman National Park with its deep green forests and breathtaking beaches we turn south to the west coast. The next highlights are the pancake rocks at Punakaiki and the enormous mountains of the Southern Alps near Franz Josef Glacier. Over the Haast Pass we turn east to Wanaka and finally to Queenstown, the world's capital for bungee jumping, jet boating and river rafting. We visit the world famous Milford Sound by plane or helicopter.

Lake Pukaki, Mt. Cook and Lake Tekapo are the last stations before we reach Christchurch, the final point on this fantastic motorcycle trip.

New Zealand is everything you can imagine and even more. Join us. !

### Tour Plan
